

Flights

Tags: **Consuming APIs**

The Skyscanner API lets you search for flights & get flight prices from Skyscanner's database of prices, as well as get live quotes directly from ticketing agencies.

User Skyscanner API to list flights out of at least TWO origin places.

This is a freemium API. Don't make more than 50 requests/minute or 200 requests/day.

API Access Token: **ebc76fe742msh1d14172d6b70c64p186205jsnf13fc9939823**
